C30

FULL PROCESSOR
OR MODULAR

 **CREM**

THE WORLD FIRST MODULAR FLEXO PROCESSOR

Add passion to your system • Easy to grow • Increase your quality with las technology • Hi quality plates 5080 HD* • UV led insolation system, on ctp plate*:

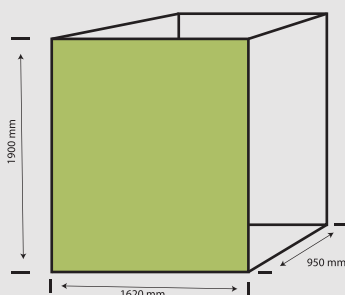

Complete System or Modular

HMI control ProcessScreen
Centralized Vacuum system (if needed)
Water filtration and recirculation system
Air components cooled fan.

Available Modules

Washout + Filtration
Washout + Filtration + UV
Washout + Filtration + UV + Dry
Washout + Filtration + UV + Dry + UVc + UVf

Technical details, C20 / C30

Weight: 180 kg.
Operational volt: 400v 3-phase +
neutral 50/60Hz
Control Volt: 24vdc/230v 50/60 Hz.

C20; maximum operational size 635x508 mm.
C30; maximum operational size 635x762 mm.

Operating process

1. WASHOUT + filtration kit:

- Brush friendly with all Flexo plate range in market.
- Filtration water system; reusable stain steel filters.
- Flat orbital washout system.

2. UV lamps:

- Back insolation + main insolation with actinic lamps, powered by electronic igniter.

UVf + UVc lamps:

- Same try for UVfinishing + UVc lamps, powered by electronic igniter.

3. DRYER:

- Two oven tray to dry plates at same time.

EcoSystems
